Welcome to Agtronics Goondiwindi

Agtronics Goondiwindi are leading dealers and manufacturers of agricultural electronics, precision farming equipment and the award winning Chaser WeedIT Spot Spraying machine.

At Agtronics, we endeavour to meet the needs of our customers to help your agricultural business become more efficient and profitable by using the best technology in the field. Plus, the high-performance equipment that we fabricate is suited to the unique needs of Australian agriculture.

When you buy from Agtronics, you aren't purchasing just another piece of equipment. Our confident, committed team will do our best to provide great customer service and a quality product for you and your business. Call today to learn more about how we can help your farm flourish.

Our Products and Services

At Agtronics, we find the best equipment and electronics to suit your particular agricultural needs and challenges. We've selected the best brands in the precision ag farming industry and focus our efforts on helping you succeed.

As a customer of Agtronics, you can rest assured that the products purchased here will be perfectly suited to the unique needs of Australian agriculture. Whether your goal is to become more efficient or more profitable, Agtronics can assist you in meeting your goals. We offer the most superior weed targeting console currently available in Australia. But that's just the beginning!

This is what Agtronics does every day of the week.

**Please don't hesitate to contact us for more information,
or for assistance with finding the best products for your needs.**

Chaser MKII Spot Sprayer

A locally built rig supporting local businesses!
It's Australian made at it's best!

- Weed-IT Quadro sensors and base kits
- Single or triple nozzle holders and choice of nozzles
- 2 trim colours: jacaranda or yellow
- Ground following boom, manual fold and lockable wheel assembly
- 4000L, 6000L, 7000L and 8000L tanks with spot tank and flush tank
- 2m or 3m wheel centres
- Hydraulic toe in/toe out system
- Hydraulic Isobus height control
- Optional Isobus blanket line
- Optional Weed-IT Isobus

There are optional extras on all our rigs:

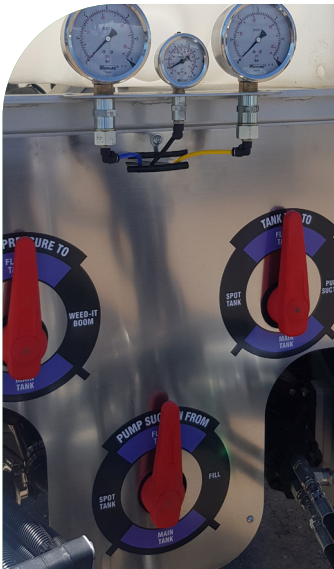

- Blanket (Second) Line
- 30L Ecolog Mixer (Hopper)
- Air operated automated locking pins
- WEED-IT Isobus

Different size nozzle and nozzle tips are also available.

AGT Chaser Cart Benefits

Our machines have been designed and engineered to eliminate the most common engineering issues, we were able to do this as we experienced first hand what engineering issues were out there and therefore we were able to design this “award winning chaser”.

- Independent suspension on cart with airbags (3m machines)
- Air ride valve so cart ride height can be adjusted
- Machine can be towed at 70km/h on highway
- Cable tray for all cables made out of stainless steel
- Hoses and cables are positioned so they can't get damaged by stubble
- Weed-IT sensor brackets and wetline is all stainless steel
- Air outlet located near cart tyre should you have to pump up the tyre
- Dual 12V air compressors
- BKT Industrial tyres
- Cart Weed-IT sensors are mounted in front of tyres
- Weed-IT plumbing is a recirculating system so you can prime your chemical
- All rigs are sand blasted followed by two coats of Epoxy primer and two coats of two Pac Paint

PLUMBING OPERATION

8000L CART WITH 2000L SPOT TANK & 600L FLUSH TANK

CHEMICAL HOPPER

AGT Chaser Boom Benefits

Chaser boom is one of the only hybrid booms in the world that gives the farmer the advantage of excellent WEED-IT detection targeting while still be able to fold over the wing tip (5m on 36m rig) in the corners of fields or for transport (making the boom shorter for transport).

- All cables (except at fold points) are in cable trays and the sensor cable is in the stainless sensor bracket
- Simple 8 x 8 inch mild steel boom construction
- Caster wheels pin is 3 inch
- Caster wheels has locking system so wheels can be locked in transport so they don't get wheel flutter
- Caster wheel lock system can be manual lock or air operated
- Caster wheel 4x4 air bag valve making boom height easily adjusted
- BKT tyres
- Hydraulic ultrasonic controlled wing tip
- Overall width is under 3.5m for on road travel
- Overall length in transport is within most state regulations for on road travel
- Stainless steel wetline 32mm for volume

Agricultural electronics, precision ag farming and spot spraying equipment specialists

We have dealers in Central – Queensland, Darling Downs – Queensland,
Victoria & South Australia. Please contact us for more information.
